During this session, we will discuss these programs and provide a forum for interactive discussion and updates. Topics will range from the history of the organizations to roadside enforcement of UCR, IFTA and IRP. Come ready to share your questions, comments, suggestions and feedback

09:30 a.m. CT - 12:00 p.m. CT

Information Session - Beyond Sleep Apnea: Addressing the Most Common Sleep Disorder Among Drivers

Hilton Minneapolis, Second Level, Orchestra AB

Insomnia is the most common sleep disorder and a significant contributor to fatigue-related performance impairment, a factor frequently identified in National Transportation Safety Board crash investigations. For motor carriers, untreated insomnia can increase crash/incident risk, diminish driver well-being and contribute to preventable errors and turnover. This session will help safety managers recognize the signs of insomnia, understand the medical evaluation process and build effective partnerships with medical examiners. Attendees will learn about evidence-based treatment options, including cognitive behavioral therapy, appropriate medication use and practical sleep hygiene strategies. They will leave with tools and resources to connect drivers with qualified sleep specialists and support healthier sleep across the fleet.
