**SUMMARY OF ISSUE**

Violations in Rear Impact Guards prevent the trailer from getting a CVSA decal. SafeSpect does not recognize it and wants you to add a sticker. Then you have to go through the process of why it does not get a sticker.

**JUSTIFICATION OR NEED**

SafeSpect recognizing the Rear Impact Guards for decal issuance.

**REQUEST FOR ACTION**

Uniformity in the SafeSpect platform to match the note in the Critical Vehicle Inspection List about the Rear Impact Guard.
