

# CVSA Annual Conference and Exhibition

September 8-12, 2024

Big Sky, Montana

## **2024 CVSA EXHIBITOR INFORMATION**

The CVSA Annual Conference and Exhibition is the most important event in North America for public and private sector leaders of the commercial motor vehicle safety industry. This unique event will host hundreds of delegates from across North America from Sept. 8-12 in Big Sky, Montana.

We invite you to share your knowledge and your company's most innovative commercial motor vehicle safety solutions with key decision-makers by participating as an exhibitor.

No other event brings the people, data and knowledge together in a way that actively identifies and evaluates transportation processes and procedures related to improving commercial motor vehicle safety. The CVSA Annual Conference and Exhibition attracts the best of the best in law enforcement, government, motor carriers, suppliers to these constituents and many other industry disciplines to share ideas, work through issues and solve the problems that challenge commercial motor vehicle safety.

This year, our spatial arrangement is unique. Instead of traditional booths, we will have 8-foot tables distributed throughout the hallways and dining area.

### **Each exhibit booth rental includes:**

- One 8' x 2' table, two chairs, and a waste basket
- One complimentary annual conference registration
- One booth identification sign with company name
- One pre- and one post-conference attendee list
- Company name and logo on CVSA's website
- VIP access to CVSA's mobile event app to include a company profile, logo and contacts
- Exclusive exhibit time to connect with attendees over three days with booths located throughout the event complex.

### **Important Submission Notes:**

- Please include your first, second and third booth choices in the Application for Exhibit Space. We will do our best to accommodate your requests.
- Booth assignments cannot be held or confirmed without a completed Application for Exhibit Space.
- We will begin accepting general applications on Wednesday, June 12, until Wednesday, July 31, or until space sells out.
- Priority exhibitors may begin submitting applications as early as Monday, May 20.
